

Biography:

"THE ROSEFIELD" is a 160 acre Working Fiber Farm. I started with just a few angora bunnies but fell in love with them. Today we have between 50 and 100 angora rabbits that we harvest the angora from. Our rabbits are mostly German and English and crosses of each; but we have added some French because of a new friendship with another angora rabbit breeder. Our colors are white, chocolate, red, torts, blues and blacks. We sell angora by the ounce, pound, roving and yarn as well as offering breeding stock when they are available.
